AVSS VERSION 4.13 RELEASE NOTES

November 2003

BIRTH CERTIFICATE CHANGES:

03-004 UNKNOWN is no longer allowed in Fields 7 and 8 (Father's State Of Birth And Date Of Birth); dashes must be used.

DEATH RECORD CHANGES:

03-050 The LFN ASSIGNMENT suboption may not be applied to local file numbers that have already been marked as missing using the MISSING FILE NUMBER EDITOR suboption. This modification also applies to birth certificates.

FETAL DEATH CERTIFICATE CHANGES:

03-064 List choices for Field 35 (Abnormal Conditions And Clinical Procedures) have been corrected to reflect the Supplemental Worksheet for the Certificate Of Fetal Death.

CONFIDENTIAL MORBIDITY REPORT CHANGES:

03-018 Disease list has been updated (included in Version 4.12A).

03-019 WEEKLY MORBIDITY REPORT has been updated (included in Version 4.12A).

REPORT GENERATOR CHANGES:

03-030 The #CDCFAC report has been enhanced to add facility numerical codes (included in Version 4.12A).

SYSTEM MAINTENANCE CHANGES:

03-001 After a user password has been changed by a system manager, the user is automatically taken to the CHANGE YOUR PASSWORD suboption (one level down from YOUR PASSWORD option).

CENSUS TRACTING CHANGES:

97-178 Scrolling/screen display problems have been addressed (at least in AVSS/NET).

97-179 The user interface now incorporates such standard AVSS commands as ?, ^, ^L, ^Q.

97-180 The address matching algorithm has been refined, thus resulting in improved match rates.
